

Assignment 1.1 ANSWERS

5)

1.

- Prescriptive Analytics used to predict the future outcomes?- FALSE
- Base R packages installed automatically?- TRUE

2. R takes the shorter vector and repeats them until it becomes long enough to match the longer vector.

3. Example of recycling of elements

> c(1,2,4) + c(6,0,9,20,22)

The shorter vector is recycled as follows

c(1,2,4,1,2) + c(6,0,9,20,22)
